## Introduction

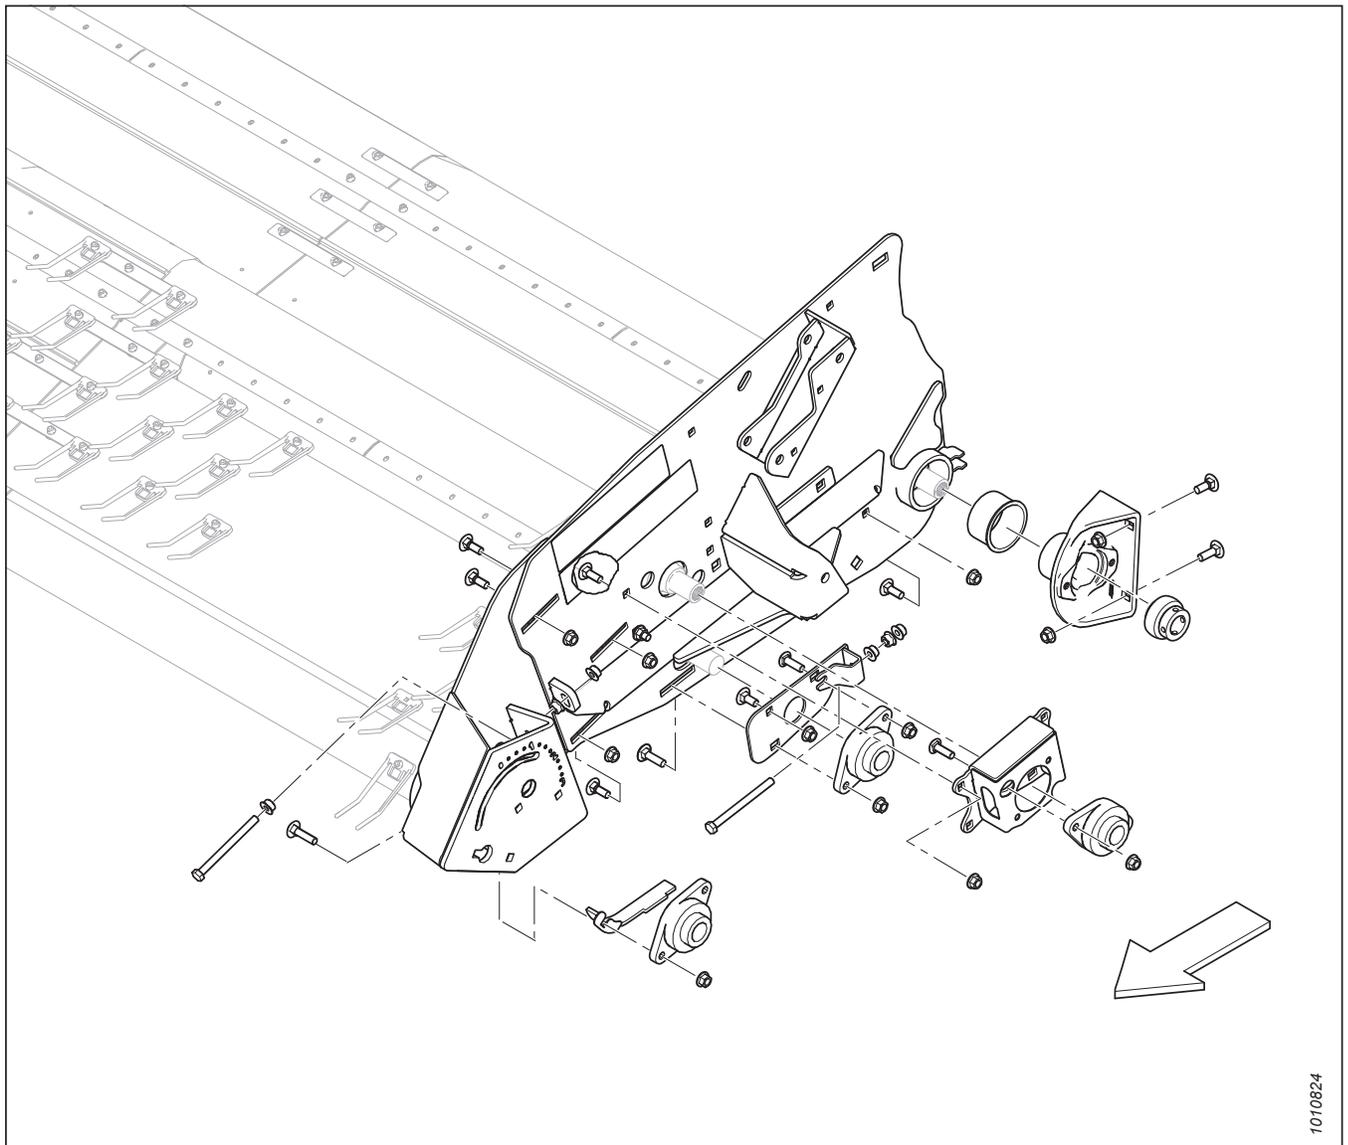

This Parts Catalog lists all the replacement parts that can be ordered for a MacDon PW8 Pick-Up Header.

When ordering, be sure the complete and proper part number is given.

**Bold text is used to indicate updates made at the current revision level.** With each new revision of the catalog, previous revisions are returned to regular text.

Electrical connectors used on MacDon products are available for sale but not listed in this catalog. For the list of available connectors, refer to the Electrical Connectors Parts Catalog (MD #169641).

In this catalog, right-hand (RH) and left-hand (LH) are determined from the operator's seated position in the combine. An arrow is sometimes used in illustrations to indicate forward position as shown below.

1010824

## Abbreviations

A/R – as required (quantity varies)	ASSY – assembly	BHRN – button head rib neck
BV – ball valve	CCW – counterclockwise	CON – conical (spring washer)
CSK – countersink	C/W – complete with	CW – clockwise
DBLE – double	DK – double knife	DR – double reel
DT – distorted thread	FLG – flange	GA – gauge
GR – grade	GS – grass seed	HD – head
HDR – header	HFA – hydraulic fore-aft	HH – hex head
HNBR – hydrogenated nitrile butadiene rubber	HYD – hydraulic	I.D. – inside diameter
IP – internal plus (torx plus)	KP – knife pressure	KR – knife return
LG – long	LH – left hand (determined from Operator's position, facing forward)	LK – lock
MACH – machine	MD – MacDon	MFA – manual fore-aft
MY – model year	NC – national coarse thread	NF – national fine thread
NSS – not sold separately	NT – narrow transport	O.D. – outside diameter
OPT – optional	PO – pilot operated	PT – pull-type (mower conditioner)
RC – roller chain	REF – reference, part number called up elsewhere in catalog	REG – regular
RH – right hand (determined from Operator's position, facing forward)	RHSN – round head, square neck or square neck carriage bolt	RHSSN – round head, short, square neck
RTD – rotating tine drum	SAE – Society of Automotive Engineers (part produced to comply with)	SD – side draper
SER – serrated	SK – single knife	SKT HD – socket head
SMTH – smooth	SMV – slow moving vehicle	SOCK – socket
SP – self-propelled (windrower) header	SPCL – special	SPH – spherical
SPI – serrations per inch (knife Sections)	SR – single reel	STL – steel (stainless)
STR – standard	STVR – Stover	TFL – thread full length
THD – thread	TR – triple reel	UCA – upper cross auger
UDK – untimed double knife	UNC – unified coarse thread	UNEF – unified extra fine thread
UNF – unified fine thread	UNS – unified special thread series	VK – vertical knife
WF – wide frame	ZP – zinc plated	

## Serial Number Breaks

The side of the serial number on which the dash (–) appears determines whether the part is used "up to" or "after" the serial number given.

**Example:**

- –162249 Used on machines up to and including serial number 166249
- 166250– Used on machines including and after serial number 166250

## Summary of Changes – PW8 (215933 Rev. A)

This list covers changes made since the last revision (21578 Rev. A).

Section	Summary of Change	Internal Use Only
<i>4 Base Assembly Hydraulics – 2019 and Prior, page 9</i>	Added edge trim seal 176334. Updated illustration from 1007092 to 1038951.	ECN 62483
<i>5 Base Assembly Hydraulics – 2020 and Later, page 11</i>	Added edge trim seal 176334. Updated illustration from 1029565 to 1038950.	ECN 62483
<i>12 Decks – Mechanism, page 29</i>	Replaced frame weldments 237915, 237920, and 237921 with assemblies 302484, 302486, and 302485. The new frame assemblies include 25-hr grease decal 23164. Added decal 23164 to left side frame weldment 237922.	ECN 61943
<i>14 Decks – Drapers and Rollers, page 33</i>	Superseded finger 20-pack 191855 with individual finger 181047.	ECN 62022
<i>17 Seed Saver Performance Option, page 39</i>	Left and right support weldments 302031 and 302032 superseded by 302437 and 302438. Updated illustration from 1025983 to 1038949.	ECN 61428
<i>26 Combine Completion – Connection, 2022 and Prior (IDEAL™), page 57</i>	Panels 302017, 302026, and 302027 superseded by PW8 Ideal panels kit 302473.	ECN 62489
<i>27 Combine Completion – Connection, 2023 (IDEAL™), page 59</i>	Added section with new illustration 1038953.	ECN 62489
<i>47 Axial (Challenger® or Massey Ferguson®) to IDEAL™ Conversion – Connection, page 101</i>	Replaced panels 302017, 302026, and 302027 with 302403, 302406, and 302470. Updated illustration from 1029454 to 1038964.	ECN 62889
<i>55 Decals – Information, page 117</i>	Added 25-hr grease decal 23164. Updated illustration from 1033163 to 1038939.	ECN 61943

13. Model year 2015 and prior units use auger weldment MD #237539 until stock is depleted. Servicing MD #237539 will require auger weldment (MD #302293), six bolts (MD #135900), and six nuts (MD #148645).
14. For MacDon, quantity varies from 16–22 depending on which combine completion package is installed. For AGCO, quantity varies from 18–22 depending on combine feeder house size. Auger finger assembly (MD #182007) includes spring pin (MD #184741).
15. Was previously clamp MD #152995, which has been superseded by clamp MD #237842. Clamp MD #237842 now has additional center hardware that helps increase the clamping around the shafts. To service units with clamp MD #152995, order Auger Clamps kit (MD #237912).
16. Auger Clamps kit (MD #237912) includes two finger support clamps (MD #237842), three bolts (MD #184659), three washers (MD #184711), and three nuts (MD #50101).
17. Includes grease zerk.
18. 2015 model year units only. Intended to correct issue on some 2015 models where hardware securing the right side of auger to the bearing block becomes loose during operation. Includes two spacers (MD #237667), two M10 Nord-Lock washers (MD #252227), two M10 nuts (MD #50101), and instructions.
19. Split Finger Holder kit (MD #276839) provides all parts needed to replace one-piece finger holders with split finger holders. The kit includes five split finger holders (not sold separately), ten spacers (not sold separately), five hair pins (MD #123180), ten bolts (MD #252703), ten tee nuts (MD #197263), and instructions.

H	152670	BOLT – HEX FLG HD M10 X 1.5 X 20 X SPCL-8.8-A3L		

50. New Gleaner S9 combines require a three-wire speed sensor where previous generations used a two-wire speed sensor. The two-wire sensor (MD #184440) is factory-installed as the draper speed sensor for all 4300 Pick-Up Headers used with Gleaner combines. The Gleaner Three-Wire Speed Sensor kit (not sold separately) can be used to replace the factory-installed two-wire sensor with the three-wire sensor required for Gleaner S9 combines. The kit is included in the header instruction manual compartment. The kit includes three-wire sensor (MD #152736) and instructions.
51. Optional; When installing the speed sensor disc there is sometimes interference between the disc and the support bearing. If this interference exists, use only one of the listed washers (MD #18963 or 16652) to alleviate the interference.

## 25 Combine Completion – Hydraulic/Electric (Gleaner®)

1033206

**COMBINE COMPLETION – HYDRAULIC/ELECTRIC (GLENER®)**

**NOTE:**

For specific electrical harness parts, refer to Electrical Connector Parts Catalog (MD #169641).
