D2 Series FlexDraper® Header with FM200 Float Module

Published: January 2023

Introduction

This Parts Catalog lists all the replacement parts that can be ordered for a MacDon D2 Series Combine Header (Sections 1–113) and a FM200 Float Module (Sections 114–152).

When ordering, be sure the complete and proper part number is given. Some parts vary with header size; be sure you are ordering the correct part number for your unit.

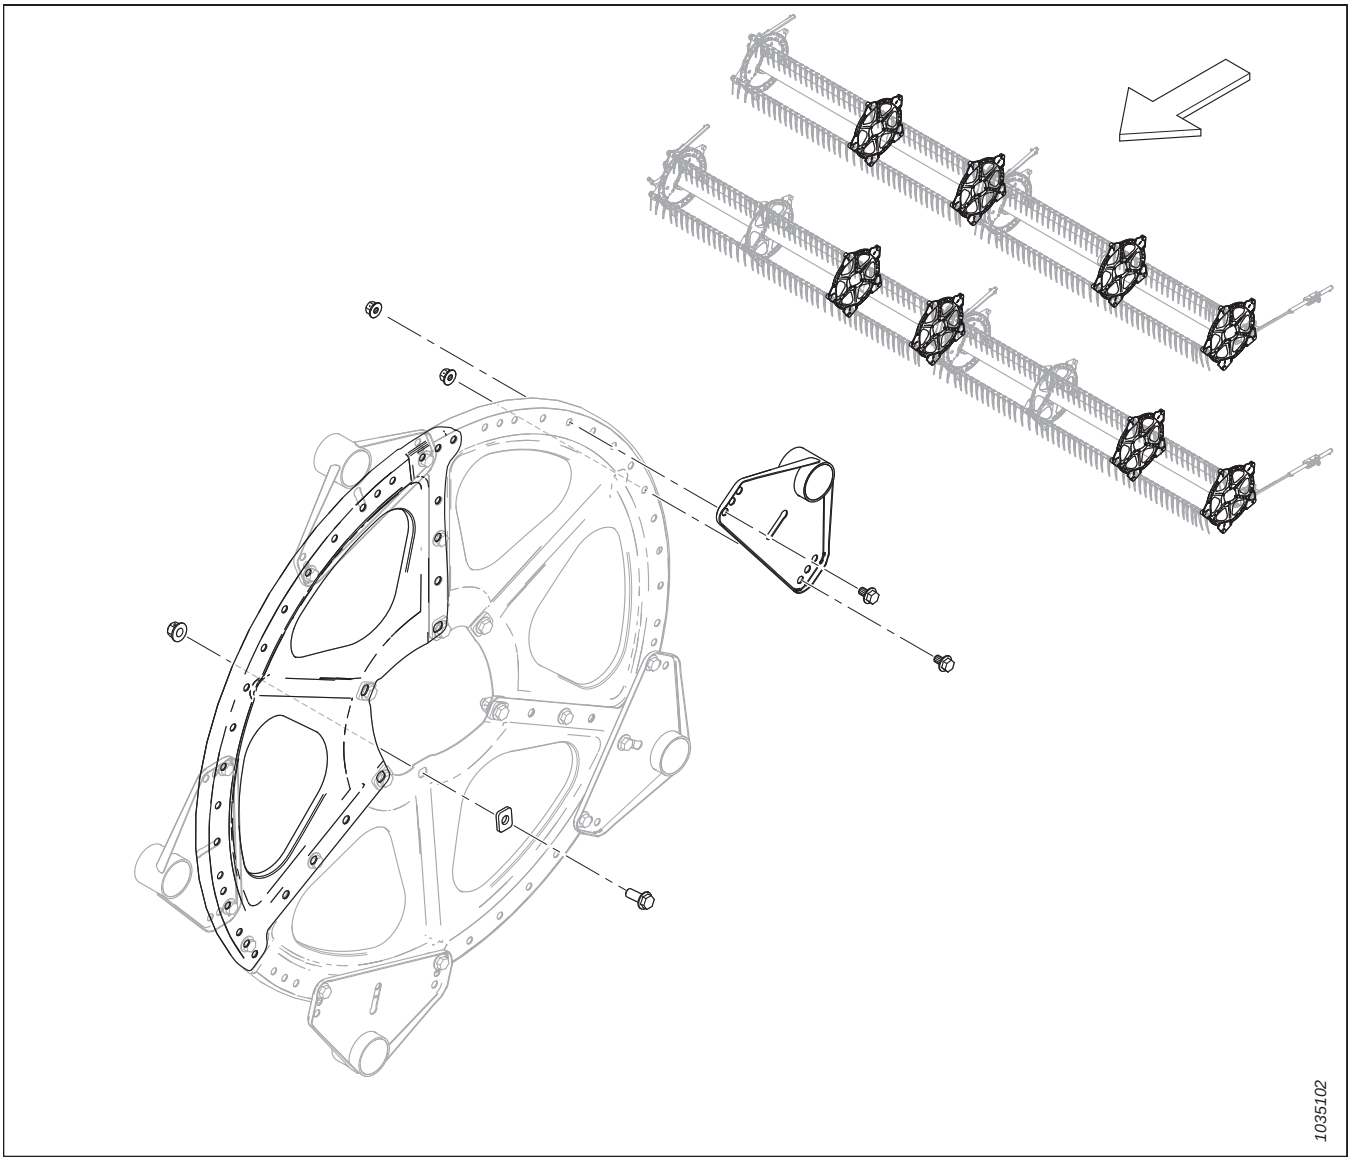

NOTE:

Add the prefix MAC to part numbers when ordering Example: MAC123456.

Bold text is used to indicate updates made at the current revision level. With each new revision of the catalog, previous revisions are returned to regular text.

Electrical connectors used on MacDon products are available for sale but not listed in this catalog. For the list of available connectors, refer to the Electrical Connectors Parts Catalog (MAC169641).

In this catalog, right and left are determined from the operator's seated position in the combine. An arrow is sometimes used in illustrations to indicate forward position.

Serial Number Breaks

The side of the serial number on which the dash (–) appears determines whether the part is used "up to" or "after" the serial number given.

Example:

- –451189 Used on machines up to and including serial number 451189
- 451190– Used on machines including and after serial number 451190

105. Narrow or wide tine tubes can be distinguished from the first three fingers of the RH side. Narrow tine tubes have one RH angled finger (MAC311523) followed by two straight fingers (MAC174849) and measure 76 mm, 146 mm, and 265 mm as illustrated. Wide tine tubes have two RH angled fingers (MAC311523) followed by one straight finger (MAC174849) and measure 76 mm, 214 mm, and 315 mm as illustrated.
106. There are two lengths of finger that can be ordered. The finger at the RH side of the reel is shorter than fingers at the center of the header. The correct finger must be installed in the correct position to prevent damage. Determine the proper length (315 or 305 mm) of a finger by measuring the finger from the inside top loop to the finger tip as shown in illustration.
107. Aluminum; for triple-reel headers only.
