A technical diagram of a track switch assembly. It features a central vertical line representing a track. On the left side, there are ten circular callouts numbered 1 through 10, each pointing to a specific component or connection point along the track. On the right side, there are two rectangular components labeled '10' and '37'. The '10' component is positioned above the track, while the '37' component is below it. The entire assembly is mounted on a horizontal base plate.
