Knife Assembly Quick Reference Guide

Convenient knife replacement

MacDon Knife Assembly Kits offers a convenient way for our customers to replace the complete knife on the header with one single package. Each kit contains all necessary knife segments, splice kits, and sections required for a complete replacement.

Refer to the table below to find the kit that suits you most.

MacDon knife assembly kits - 2 series

SINGLE KNIFE DRIVE			
Description	Part #		
	Coarse	Fine	Ultra-Coarse
20 foot, single knife	286752	286755	286778
25 foot, single knife	286597	286609	286779
30 foot, single knife	286598	286610	286780
35 foot, single knife	286599	286611	286781
40 foot, single knife	286600	286612	286782

DOUBLE KNIFE DRIVE			
Description	Part #		
	Coarse	Fine	Ultra-Coarse
15 foot, double knife	286753	286756	286783
20 foot, double knife	286754	286757	286784
25 foot, double knife	286602	286614	286785
30 foot, double knife	286885	286615	286786
35 foot, double knife	286886	286616	286787
40 foot, double knife	286887	286617	286788
41 foot, double knife	286888	286618	286789
45 foot, double knife	286889	286619	286790
50 foot, double knife	286890	286620	286791

Note: Knife heads are sold separately. Please refer to the reference guide in page 14 to find the correct knife head for your MacDon header.

MacDon knife assembly kits - 1 series and prior

SINGLE KNIFE DRIVE				
Description	Part #			MacDon Models
	Coarse	Fine	Ultra-Coarse	
20 foot, single knife	-	335488	-	D50, D60, D65, D1
25 foot, single knife	-	335489	335513	D50, D60, D65, D1, FD1

35 foot, double knife	294792	335485	335510	D50, D60, D65, D1, D1XL
40 foot, double knife	294793	335486	335511	D50, D60, FD70, D65, FD75, D1, D1XL, FD1
45 foot, double knife	294794	335487	335512	D50, D60, FD70, D65, FD75, D1, D1XL, FD1

Note: Knife heads are sold separately. Please refer to the reference guide in page 14 to find the correct knife head for your MacDon header.

Knife Assembly Quick Reference Guide

Find your knife assembly

To help our customers select the proper replacement for their MacDon Knife Assembly, MacDon Performance Parts has created 6 easy steps to gather the necessary information so replacing your knife assembly with the proper parts is easy.

Follow these steps through the Knife Assembly Guide for an easy to follow reference guide.

6 Steps for choosing the right knife assembly

Use the MacDon knife assembly guide to ensure an easy to follow process when replacing knife assemblies!

1. Assembly

Single Knife or Double Knife Assembly?

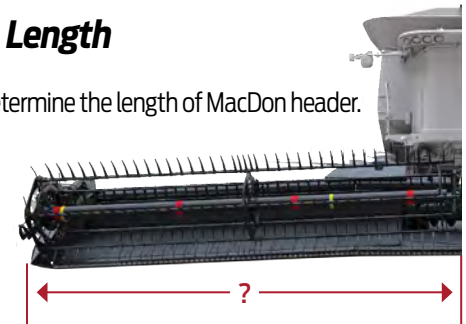

2. MacDon model

Select from the MacDon model lineup.

3. Length

Determine the length of MacDon header.

4. Side (only if double knife)

For double knife assemblies, determine if left hand or right hand assembly is being replaced.

Remember to order the Necessary splice kits.

5. Knife head + Splices

Remember to order Knife heads and splices (see last page).

6. Box of sections

Order a box of Sections that fits your needs.

Coarse
Crops: Wheat, Soybeans,
Canola, Cereals and Pulses

Fine
Crops: Forage, Grasses,
Flax and Lentils

Ultra Coarse
Crops: Thicker stemmed crops
and adverse soybean conditions

**Remember to order hardware*

Order process example

Use the example below to see how to use the 6 step guide to help select your MacDon knife assembly parts. Each listed number corresponds with the related step, showing you exactly where you need to look on the guide to help you select your knife assembly parts.

Example: This example shows the process for ordering a knife assembly for a Double knife FD75 that is 45' in length with Ultra-Coarse sections, both left and right hand sides.

Same outstanding quality and durability

MacDon Segmented and Non-segmented knife assemblies are built to the same demanding specifications. All MacDon Segmented knife assemblies utilize precision machining and high strength carbon steel splice bars to ensure equivalent durability, longevity and impact resistance as production Non-segmented knives.

Have confidence ordering MacDon Segmented knives for your MacDon header.
